

INTERVIEW PREP PROGRAM

Distinguish yourself from others by learning the ability to converse freely in meaningful discussions.

ABOUT THE PROGRAM

“Interview Prep Program” is a program designed to enhance your ability to express yourself more effectively – with clarity, authenticity, and greater confidence.

A goal of the program is to ultimately convert anxiety into excitement, doubt into confidence, and fear into courage.

WHO IT'S FOR

This program is designed to help with your interviews for college admissions and workforce entry. It is also valuable for participants of podcasts and panel presentations.

HOW IT WORKS

The basis of the program incorporates the Conscious Communication Cycle™, a communication dynamic derived from improvisational principles and interpersonal dynamics – important to both personal and business communications. Major components consist of deep listening, an impact self-assessment, reflection, discretion, and an authentic response.

“My interview went well. I was very relaxed and I felt confident in my answers. There were lots of long pauses while he took notes and I made sure to remain calm and confident. I had to tell a few stories and I made sure to keep them clear and concise. Our sessions definitely made a difference.”
